

In addition to our video examples and online demo, we selected a few digital multimedia test items from our CROME project in these power point slides. A brief description is also included.

Mathematics

Example 1

Question: Pick the numbers divisible by 8 and 3 into the basket.
Direction: Use mouse left button to rotate numbers; use mouse right button to drag numbers;

10 20 24 30

40 48 77 96

Numbers in Basket #1:

Reset
Submit

This is designed to test a student's Math skill. In this example, the student has to use the mouse to drag the numbers divisible by 8 and 3 into the basket. Other than numbers, the question can also ask to drag a particular shape, color, or a named object.

Mathematics

Example 2

Question: Distribute the weights evenly into this two baskets.

Direction: Use mouse left button to rotate numbers; use mouse right button to drag numbers;

10

10

20

44

20

26

30

Numbers in Basket #1:

Numbers in Basket #2:

Reset

Submit

In this second example, the student has to place the numbers into two baskets so that both baskets store the same “total”

Mathematics

Example 3

Question: Select Piet Hein's superellipse.

Show Answer

Submit

In this test, the student has to drag the correct curve to the answer box.

Mathematics

Example 4

Question: Name the shapes indicated by the picture.

Hexagon	<1>	<input type="text"/>
Rectangle	<2>	<input type="text"/>
Ellipse	<3>	<input type="text"/>
Pentagon	<4>	<input type="text"/>
Circle	<5>	<input type="text"/>
Square	<6>	<input type="text"/>
Triangle		
Trapezoid		

< 4 >

< Play > Go

Submit

Animation can be used in online computer-based tests. In this example, 6 shapes are presented in sequence on the right hand panel. The student has to drag the correct shape description from the left panel to the corresponding box in the middle panel.

Chemistry

Example 1

03:48

This design allows the student to choose the correct atoms and form a molecule, which can be manipulated in 3-dimensional space. Interactivity and realism can help students to understand abstract concepts better.

Similar to the previous example, but this time the student has to drag the correct names to match the 4 persons shown on the right panel.

Social

Example 3

Question: Name the province indicated by the pictures.

Alberta	<1>	<input type="text"/>
British-Columbia	<2>	<input type="text"/>
Cape-Breton	<3>	<input type="text"/>
Labrador	<4>	<input type="text"/>
Manitoba	<5>	<input type="text"/>
New-Brunswick	<6>	<input type="text"/>
Saskatchewan		
Yukon		
Ontario		
Quebec		

The flag of New Brunswick is displayed, featuring a red top section with a golden lion passant guardant, a yellow middle section with a white sailing ship on a blue sea, and a blue bottom section with white waves.

< 4 >

In a Social question, the student has to match the province with its flag.

Social

Example 4

Question: Select the red flower and the blue smoke.

 <input type="checkbox"/>	 <input type="checkbox"/>
java	 <input type="checkbox"/>

By using digital multimedia content, not only 2D pictures, but also 3D objects can be used in multiple choice and other question formats

Social

Example 5

Question: This audio file was created by which one of the following techniques?

The choices

- (A) Java Sound
- (B) Sound
- (C) Java API

The stimulus

Audio is playing ...

Submit

Our digital multimedia content also includes audio and video

Social

Example 6

Question: How many different letters are there in this picture?

The choices

1

2

3

4

The stimulus

Submit

- Another JMF Applet
- An audio will be played and based on it, students are required to answer the question

Social

Example 7

Question: How many fruits are there on the table?

The choices

- a
- b
- c
- d
- e

The stimulus

Submit

In this example, a video clip with sound showing some fruits is played. The student has to answer the questions based on the video content

English

Example 1

Question: Fill a letter in the empty cube to make two words.

A	B	C	D	E	F	G	H	I	J	K	L	M
N	O	P	Q	R	S	T	U	V	W	X	Y	Z

To put a letter on a cube:

1. Left click a cube, which makes it light blue;
2. Left click a letter button in the alphabet table.
3. The letter will appear on the cube.

To clear a letter on a cube:

1. Left click a cube, which makes it light blue;
2. Left click the Clear button;

To move the whole table:

1. Press the LEFT button and hold;
2. Drag the mouse.

To rotate the whole table:

1. Press the RIGHT button and hold;
2. Drag the mouse.

To reset the cubes to their original locations:

1. Left click the Reset button.

In addition to 2D word puzzles, we also provide 3D word puzzles.

English

Example 2

Question: Two kinds of fruit that do not mix.

N	A	G						
A		E	O	R				
P		P						
L	E							

This is a 2D vocabulary test.

Geography

Example 1

Question: Order of countries to enter WWI(series).

```
graph TD; Maine[Maine] --> Delaware[Delaware]; Delaware --> NewYork[New York]; NewYork --> Connecticut[Connecticut]; NewYork --> Virginia[Virginia];
```

Click to activate and use this control

Show Answer Submit

The student is asked to link the moving boxes (American cities), in the direction of north to south. This is to test not only the subject knowledge but also the spatial skill.
